What is an Oracle?

An Oracle is a tool for connecting to the Divine realm of higher wisdom, guidance, and insights on our life journey. We consult an Oracle to get deeper or **hidden insights** into a situation.

Divination cards, such as Tarot and Oracle cards, use a mystical language of visual art ordered into four or more suits (similar to regular playing cards). Most oracles use suits based on the four elements: **Earth** (body & possessions), **Air** (mind & reason), **Water** (heart & emotions), and **Fire** (spirit, will, action, and the power to transform).

How do Oracle cards work?

Most readings start with a **question or problem** in life concerning relationships, money, work, creativity, spirituality, and health. By shuffling cards, we infuse our personal energy of this situation into the oracle. We align with Spirit to open channels of communication between us and the Divine, angelic realm. The cards we pull have specific messages for our questions.

By placing each card intentionally in a **card spread,** the card takes on additional meaning. For example, in a Past-Present-Future spread, each of three cards holds information about what has happened, what is happening now, and what may likely happen next. So the meaning and reading of each card depends on which spread is used, which intention is set.
